# **GALEN GUYER**

# Full Stack Software Engineer Seeking a Summer 2021 Co-op **EXPERIENCE**

## Blackbaud

## **DevOps Intern**

May 2021 - August 2021

Remote

- Did some things for DevOps
- Probably did a lot of things for devops, it was the job after all
- DevOps is fun and my hoby, let's do all the Developer Operations, whee! *Tools:* PowerShell, Azure, That One Old Thing

#### Microsoft

### **Software Engineering Intern - One Customer Voice Team**

🛗 June 2019 - August 2019

Redmond, WA

- Improved item grouping for the internal feedback aggregation tool
- Defined project scope and requirements within a tech spec and documented UI and backend changes in a design doc
- Exposed all previously hidden top level fields and automatically detected field type via ElasticSearch mappings, greatly increasing both the granularity and flexibility for users
- Implemented frontend, backend, and tests with 100% backend code coverage

Tools: C#, ASP.NET, Azure Service Fabric, ElasticSearch, AngularJS

## Software Engineering Intern - Office Security Penetration Testing Team

## June 2018 - August 2018

Redmond, WA

- Automated resource gathering, provisioning, and deployment of fuzzing jobs
- Developed a PowerShell script to create a Windows VM, automatically install
  Office, gather debugging symbols for Office, and send these to a Microsoft
  Security Risk Detection server to install and start a fuzzing run
- Implemented a server to collect, deduplicate, and report new bugs
- Worked closely with the Microsoft Security Risk Detection team to help improve the job deployment process while the tool was in internal beta

Tools: PowerShell, Microsoft Security Risk Detection, Azure, ASP.NET

## **PROJECTS**

### RIT COVID-19 Dashboard

#### https://ritcoviddashboard.com

- Wrote a Python scraper to check the official dashboard on an interval and update a SQLite database with the numbers from the official dashboard, then expose the saved data with a JSON API
- Used the data from the scraper in a React app that provides all the information from the official dashboard as well as changes over a user-selected time period and graphs of all historical data
- Used by roughly 10% of the student body within 24 hours of launch

Tools: Python, SQLite, Flask, React, Docker

## Global Content Delivery Network

#### % https://galenguyer.com

- Consists of Azure Virtual Machines distributed around the globe to provide the least latency based on the user's geographical location
- Deploys with Terraform for easily reproducible infrastructure
- Uses Ansible to distribute static files, configuration files, and SSL certificates from a central server to all edge servers

Tools: Azure Virtual Machines, Azure Traffic Managers, Bash, Nginx

## **EDUCATION**

## Rochester Institute of Technology Software Engineering B.S.

Expected Graduation May 2024

## **SKILLS**

## Languages

C# (Python) (PowerShell) (Rust) (HTML/CSS)

JavaScript) (React) (Java) (PHP)

#### **Tools**

NGINX (Linux) Git (GitHub) (Docker)
(Docker Compose) (Traefik) (Azure) (Bash)
(MongoDB) (Flask) (Ansible)

## **ACTIVITIES**

## **Computer Science House**

#### **Systems Administrator**

April 2020 - Present

Maintain House Services such as the student-run server room and all services within it, including virtual machine and user profile management portals

## **WITR Radio**

## **Internal Developer**

Ctober 2019 - Present

Responsible for the upkeep and development of internal and public facing services such as the public website

## Society of Software Engineers

#### **Public Relations**

December 2019 - May 2020, January 2020 - Current

Coordinated company visits and tech talks throughout the semester

## **Boy Scouts**

### **Eagle Scout**

September 2017

Achieved Boy Scouts' highest rank after earning 26 merit badges and designing, coordinating, and leading a 100+ hour service project
